

**A book for improving  
comprehension  
and  
for understanding the  
order of words in  
sentences**

**Level One - Volume One**

Dear parents,

**About the book:** This book helps to improve your child's comprehension. It also helps your child to understand the position of words in a sentence.

The book has eight lessons. A word is removed from a sentence. The challenge is to locate the removed word and place it at the appropriate place in the sentence.

Answers to the lessons are provided at the end of each lesson.

**This book is meant for whom?** This book is meant for children studying in classes 2 and 3. The lessons are especially useful for children who don't have extra reading.

It is also useful for struggling students in higher classes.

Students studying in classes 4 to 7 can use the lessons as speed tests. The focus would be on how quickly the exercises in a lesson could be completed. Children can record the time taken for completing the tests.

**The benefits of the book:**

1. Improves logical thinking in children.
2. Improves comprehension.
3. Vocabulary building and improvement in the speed of reading.
4. The lessons are good training for doing exercises on unscrambling jumbled sentences – a type of questions usually asked in tests.
5. Better understanding of the order of words in a sentence.
6. Would encourage children to read independently for enjoyment.

**You can prepare lessons for your children!** This book empowers you to prepare your own lessons for your dear ones. Sentences can be located from story books or other material. Remove one word from a sentence and the question is ready. A good dictionary is an excellent source to get sentences suitable for your children. The dictionary gives you an inexhaustible supply of appropriate sentences! It provides you with a variety of simple sentences.

We suggest Cambridge Advanced Learner's Dictionary or Oxford Advanced Learner's Dictionary. Both the dictionaries are equally good.

We hope you find this book useful.
