

**A Book of  
Fill in the Blanks,  
Sentence Strips and  
Match the Following Exercises  
Volume II**

## **Aum Amriteswaryai Namah**

Dear Parents,

This is Volume Two of a series of books meant to improve vocabulary, comprehension and language skills of children studying up to seventh standard. The exercises are designed to improve the understanding of grammar.

Don't rush your child. Let her learn at her own pace. **Answers to the exercises are given at the end.** Correct the answers of your child but don't tell her the answers straight away. Observe the difficulties she is having in answering the questions. Take corrective measures. If she doesn't know the meaning of any word, explain the meaning of that word. Allow her to come up with the right answers even if it takes time. Don't get upset when she makes silly mistakes. Some children need extra time and effort to complete the exercises.

The book is useful for children with attention disorder. The exercises make them to sit for a while to do the activity. These children are impulsive and tend to answer questions without thinking too much. Therefore, they are likely to make more mistakes. Be patient with them. Revisions at frequent intervals are needed.

It is advisable to have a good dictionary. It is also useful to have English to Malayalam dictionary. Oxford's English to Malayalam Dictionary is good. Make the children refer to the dictionary as much as possible.

There are three types of exercises. Fill in the Blanks, Sentence Strips and Match the Following.

Fill in the Blanks is an excellent exercise to improve comprehension. Sentence Strips exercises teach your child the structure of sentences. These also provide lessons in grammar. Match the Following exercises are good to improve the ability to relate words to other ideas. These improve the imagination of your child. Build your children's vocabulary by doing and redoing the exercises.

We trust that both your child and you would enjoy this offering.

Amrita Vidyalayam Team

### Sentence strips

In the following questions, the first column is the first part of the sentence. The second column is the middle part of the sentence. The third column is the concluding part of the sentence. Join these strips to make a sentence.

**Make sentences taking one from each column.**
